

Please see below a supporting statement from Mr Paul Rees. This is to support his nomination as Parent Governor. Apologies for not including it in the election packs but it was received after the envelopes had been collated and sealed.+

Paul Rees - Personal Statement

Having recently moved to Branscombe I would like to become more involved within the community and see this as an ideal opportunity. I have had children at the School for the last 5 years and intend on this continuing for the next 7 years.

I am a Director of a Marine Electronics company with offices throughout the UK. I am heavily involved in managing the sales and service strategies. I sit on the Quality Assurance Council (being an ISO9001 approved company) covering all aspects of efficiency, quality of service to our customers and the continual improvement of the business. I am involved with the finance of the business through management of sales/costs and making sure adequate resources are available to allow implementation of the strategies.

I would like to see the school develop and feel I have an appropriate level of experience to assist with numerous factors that ultimately will see the school evolve in a positive way.
