

**C**ome on and give it a go!

**A**nother way to help the environment

**R**oads won't be so busy if we share  
our cars with others

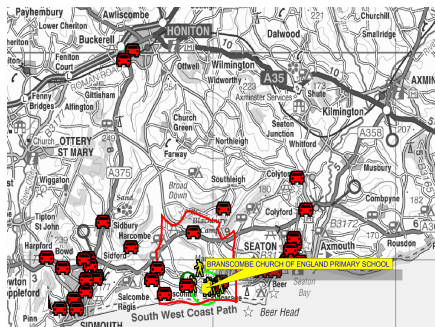

**S**haring a car will help you!

**H**ave a great time talking to friends

**A**ll families can join in

**R**eady to save your money?

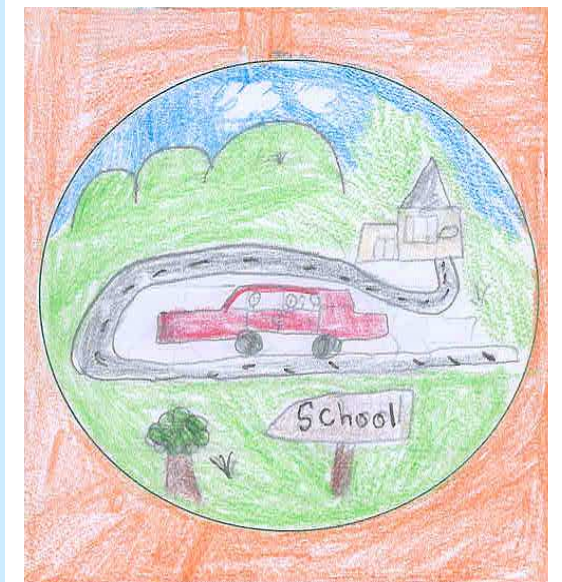

**E**ncourage your friends and family

**How pupils travel to school now**

- A majority of pupils drive to school but do not car share
- A few people walk to school from home. And we do have a walking scheme where you can walk up the path from the village hall
- Many people come from Sidmouth and Seaton, so a lot of people could share lifts from there
- **CAR SHARE!** It will help the environment so much if everyone car share with other people

## Branscombe C of E Primary School **CAR SHARE CHALLENGE!**

## What is the Car Share Challenge?

- The car share challenge is to get all the children who drive to school in just 15 CARS!
- But we can't do this all on our own. We need YOUR HELP!
- So on 22 October could you share a lift to school with one or, if possible, two families? We could all try and get into just 15 cars.
- PLEASE HELP!

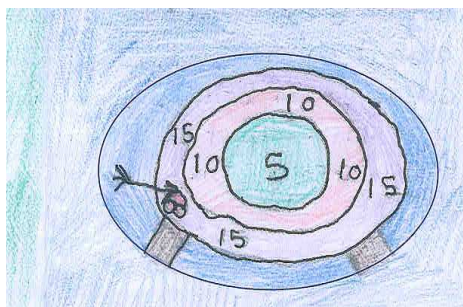

## Why do we want to reduce the number of cars travelling to our school?

- At the moment in the rush hour 20% of cars are mums or dads driving their children to school. This is sending a lot of carbon dioxide into the air
- The more cars there are on the road the more pollution and traffic jams
- If we cut down on the amount of cars in the village, it will be safer for us to walk to and from school

## What will you get from car sharing?

### Car sharing has a lot to offer:

- A possible chance of making new friends
- A break from having to drive to school all the time
- It won't be so expensive on petrol
- It will help to reduce traffic in the morning and the evening
- It will cut down on some of the fumes

***We hope  
you all take  
part!***
